- My Dinh, Ha Noi

SUMMARY

I'm a Front-end developer with over 3 years of experience. I'm also keen on learning Back-end development and emerging technologies to become an excellent programmer.

SKILLS

STRONG SKILLS

- · Typescript/ Javascript
- NextJS/ ReactJS
- SCSS/ TailwindCSS
- Antd/ Shadon ui
- Vite/ Webpack

EDUCATION

MAJOR: INFORMATION TECHNOLOGY

2018 - 2023

POSTS AND TELECOMMUNICATIONS INSTITUTE OF TECHNOLOGY

Very good

WORK EXPERIENCE

FE DEVELOPER

March 2022 - Now

VMO Holdings

- Developed responsive and interactive web pages using ReactJS.
- Collaborated with UX/UI designers for a seamless user experience.
- Maintained and updated web applications regularly.

NOTABLE PROJECTS

PROJECT 1

March 2025 - Now

FE Developer

- **Description**: The project-based initiative uses AlSstream and GCP to allow sailors on ships and their family members to track the location and safety level in real time.
- Team size: 12
- · My responsibilities:
 - Create source base
 - $\,^\circ$ Read and confirm requirements with the BA team
 - Develop the UI according to the Figma design
 - Break down tasks and give the estimation

PROJECT 2

March 2024 - September 2024

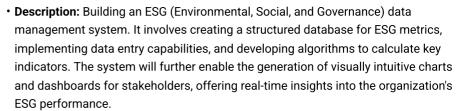

FE Developer

- Description: Utilizes AWS Connect Streams to create an efficient Call Center solution for handling inbound and outbound calls. It manages Customer, Case, and Contact information, and supports the creation and distribution of global and manual notifications. The system also includes role-based permission management to ensure appropriate access and control for all users.
- Team size: 12
- · My responsibilities:
 - Create source base
 - Read and confirm requirements with the BA team
 - Support team members to solve difficult tasks
 - Break down tasks and give the estimation
 - Develop the UI according to the Figma design
 - Training new FE developer
- · Technologies used:
 - ReactJS/ Typescript
 - amazon-connect-streams
 - react-hook-form/ zod
 - Antd/ scss
 - Zustand

PROJECT 3

October 2023 - March 2024

FE Developer

- Team size: 5
- My responsibilities:
 - · Communicate with customer to clarify the requirement
 - Estimate time to do tasks and issues
- · Technologies used:
 - NextJS/ Typescript
 - · Highcharts/ highcharts-react-official
 - Tailwind CSS
 - ∘ react-hook-form
 - Zustand

PROJECT 4

October 2022 - April 2024

FE Developer

- **Description:** The ICA application (ICA) is designed to automatically analyze documents and produce annotations that help auditors to assess the independence of an engagement. This automated analysis relies on a machine learning (ML) pipeline. The results are presented through a visual interface where auditors can navigate the documents, view the annotations, correct and comment them if necessary.
- Team size: 6
- My responsibilities:
 - Communicate with customers, receive task and give the estimation
 - Implement UI code from template on Figma
- · Technologies used:
 - ReactJS/ Typescript
 - · Azure/ msal-react
 - ∘ react-pdf/ react-window
 - Antd/ less css
 - MobX
